How to Use the IBKI Website

International Bible Knowledge Institute · A short guide to reading the lessons and taking the quizzes

STEP 01

Find a lesson

The course has six volumes. From the contents on the home page, open a volume, then a chapter, then a lesson. Or type a word or title into the search box at the top of any page.

STEP 02

Read it, listen to it, or open the PDF

Each lesson page has its text. Longer lessons are divided into sections, each on its own page, with Previous and Next links at the bottom. Most lessons also have a recording you can listen to, and the original PDF, which you can page through on screen or download and print.

STEP 03

Answer the quiz at the end

At the end of each lesson, or of each section of a longer lesson, there is a short quiz. Choose your answers and check them: you see your score, for example 5 / 7, and a short explanation of every answer.

STEP 04

Create a free account to keep your progress

Sign up with your email. Your account remembers the lessons you have read and your quiz results, on any device you sign in from. My Progress shows where you are.

STEP 05

Chapter quizzes, volume quizzes and the final exam

When you have read every lesson in a chapter, its chapter quiz opens. When you have read every lesson in a volume and passed its chapter quizzes, the volume quiz opens. The pass mark is 70%, and you can retake any of them with new questions. After all six volumes, pass the final exam to receive the IBKI diploma.

STEP 06

Certificates

Complete a volume to earn its certificate. Certificates and the diploma are kept in your account and can be downloaded as PDFs.

STEP 07

Read in your language

Use the Languages menu at the top of the page, choose your region, then your language, to have the whole site translated as you read. Translation is automatic and may not be exact.
